

## **Manlift Operator Certification Guelph**

Manlift Operator Certification Guelph - We provide an aerial lift and scissor platform training and certification to empower the trainee with the general understanding and knowledge of the efficient and safe utilization of "Power Operated Mobile Work Platforms," based on the current regulations in the industry. Upon successfully completing the training, those participating would be able to know and understand certain health and safety related dangers connected with using scissor and aerial lifts.

There are various affiliated places within your district providing Manlift Operator Certification Programs. Those training are provided with in-depth instruction about safe use and regulations together with extensive hands-on training. The level of skill and knowledge of each trainee is evaluated and those who can demonstrate an acceptable level of operational ability will be given employee documentation and Operator Certification cards.

### **Theory Training**

The trainer guides trainees through a comprehensive and interactive review in the theory training. The operator workbook is studied that covers all relevant regulations. Other topics such as safe operating measures, different equipment kinds including various sizes and associated applications, general work place safety and pre-use inspections are individually explored.

### **Theory Evaluation**

The Theory Evaluation begins with a written exam based upon the concepts included in the operator's reference handbook. These graded are graded and returned to the trainees. The exams are then reviewed to ensure understanding and a minimum score of 70% is needed in order to pass this part of the training.

### **Practical Training**

The hands-on portion of the course is included in the practical training. Here, those training are shown the safe operating procedures, the parking and shutdown procedures and the pre-use check procedures. Each one training has the chance to operate the machine and practice the skills they learned during Theory Training under the helpful eye of the program trainer in a setting which is safety controlled.

### **Practical Evaluation**

The Practical Evaluation is where the trainees are evaluated to assure they have reached a minimum level of skill. The ones training are then evaluated on an individual basis using the equipment in a reasonably challenging course environment. After the assessment is done, the trainees are de-briefed and given the opportunity to deal with whatever issues they might have about whatever portion of the program. Every employer of a successful trainee would be sent the official records and documents immediately after the course has been finished.
