### **Reasons to Train the Trainer**

Sometimes the best alternative for training workers is to engage the services of somebody or contract with outside training providers. Nonetheless, there are compelling reasons to consider sending personnel to Train the Trainer programs. Your company can benefit by making the most out of your investment. Teaching an existing staff person to train various workers is less expensive than engaging the services of somebody new. Businesses should avoid expecting individuals to take on trainer responsibilities on top of their current duties. The chosen trainer should be relieved of some of their responsibilities in order to prevent trainer burnout.

Your business will be more empowered by developing its own internal training resources. It will help to increase the company's resources and would encourage the employees to become more self-reliant. Your personnel could well be more comfortable utilizing an in-house trainer when learning new skills. By internally training, new workers could quickly be trained and brought up to speed on the equipment in the event of employees turnover.
